

**Silvia G. Priori, MD, PhD, FESC**, is Professor of Cardiology in the Department of Molecular Medicine at the University of Pavia, Scientific Director and Director of Cardiology and Molecular Medicine at the Istituto Di Ricovero e Cura a Carattere Scientifico (IRCCS) Istituti Clinici Scientifici Maugeri, and Director of the Molecular Cardiology laboratories at Centro Nacional de Investigaciones Cardiovasculares Carlos III in Madrid. Dr. Priori also is Director of Cardiac Rehabilitation and Head of the Molecular Cardiology Laboratories at the IRCCS Fondazione S. Maugeri. An expert in inherited arrhythmogenic disorders, Dr. Priori's clinical practice and research is devoted to the treatment and study of inherited arrhythmias and cardiomyopathies such as long-QT syndrome, short-QT syndrome, Brugada syndrome, catecholaminergic ventricular tachycardia, dilated cardiomyopathy, hypertrophic cardiomyopathy, right ventricular cardiomyopathy, and idiopathic ventricular tachyarrhythmias in athletes and young patients.

A native of Torino, Italy, Dr. Priori earned her MD, with specialization in cardiology, and her PhD in cardiac pathophysiology at the University of Milan. After completing her internship in cardiology at the University of Milan, she completed her fellowship in experimental electrophysiology at the University of Washington Medical School in St. Louis, Missouri.

A champion of and contributor to scientific societies that advance cardiology and electrophysiology, Dr. Priori was Professor of Medicine and Director of the Cardiovascular Genetic Program at New York University between 2008 and 2016. She is a member of the Heart Rhythm Society, European Society of Cardiology, and Italian Society of Cardiology. Dr. Priori is Past President of the European Heart Rhythm Association (EHRA) and EHRA Board of Directors. She is Associate Editor of *Circulation Research* and member of the editorial boards for *Circulation*, *European Heart Journal*, *Journal of Cardiovascular Electrophysiology*, *Pacing and Clinical Electrophysiology*, *Journal of Cardiovascular Pharmacology and Therapeutics*. Dr. Priori is the author or coauthor of more than 410 original articles, which are published in prestigious, peer-reviewed international journals. She has been nominated among ISI Thomson-Reuters Highly Cited Researchers in 2014, 2015, and 2016. She is the recipient of the prestigious European Research Council Advanced Grant to fund her research in gene therapy for catecholaminergic polymorphic ventricular tachycardia between 2015 and 2020. Dr. Priori is the recipient of more than 30 national and international honors and awards, including the Osservatorio Nazionale Top Italian Woman Scientist Award, Heart Rhythm Society Distinguished Scientist Award, and American Heart Association Outstanding Research in Pediatric Cardiology Award.
